PROFESSIONAL OVERVIEW

I am a Computer Systems Engineer with experience in developing mobile and web applications using Flutter, JavaScript, Node.js, and AWS cloud technologies. I have participated in the design, development, and integration of scalable applications, REST APIs, and serverless solutions, collaborating with multidisciplinary teams using Agile/Scrum methodologies. I specialize in developing maintainable software, optimizing processes, and delivering solutions focused on user experience and code quality.

SKILLS

- Languages: JavaScript, Dart, Python, SQL, C#, Java
- Frontend: Flutter, React, Angular, Vue, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend: Node.js, Express.js, REST API, JSON, XML
- Cloud & DevOps: AWS Lambda, API Gateway, AWS Amplify, Docker, Kubernetes, Git
- Databases: MongoDB, MySQL,SQL Server
- Tools: GitHub, GitLab, Bitbucket, Vite, Figma, Adobe XD
- Analytics / BI: Power BI, Tableau, Excel, Data Visualization, Data Analysis
- Data Modeling: Relational Databases, Data Modeling, DAX (Basic), ETL Concepts
- Methodologies: Agile, Scrum, Kanban, Code Review, Technical Documentation

WORK EXPERIENCE

Software Developer | Spark Technologies — JUNE 2025 – PRESENT

- I developed cross-platform mobile applications using Flutter and Dart.
- I designed and implemented software solutions that optimized internal processes, achieving a 20% improvement in operational efficiency, primarily using the .NET Framework.
- I integrated databases and REST services to ensure efficient storage and retrieval of information.
- I collaborated with multidisciplinary teams on more than three projects during the analysis, development, testing, and maintenance of applications.
- I managed source code using Git, following Agile methodologies and best development practices.

Web & Mobile Developer | Fixer MX — JULY 2024 – DEC 2024

- I developed a cross-platform mobile app using Flutter and Dart.
- I implemented a serverless architecture using AWS Lambda, API Gateway, and AWS Amplify.
- I integrated the frontend and backend using REST APIs, improving the system's maintainability and scalability.
- I participated in the design and development of the web and mobile platform.
- I contributed throughout the entire software development lifecycle, from analysis to functional testing.
- I developed more than 10 screens and functional modules and implemented 6 REST endpoints for communication between services, which led to a 30% improvement in the user experience.

Technical Instructor | TECNOLOchicas — JULY 2024 – JUNE 2025

- I taught workshops on HTML, CSS, and JavaScript focused on the practical development of web applications.
- I designed educational resources, programming exercises, and interactive technical materials.
- I provided personalized mentoring to more than 20 participants, helping them strengthen their programming skills and ensuring that 80% of them successfully completed the course.

EDUCATION

Bachelor of Computer Systems Engineering | Instituto Tecnológico de Mexicali 2020 - 2024
Programming Technician | CECYTE BC Plantel Compuertas 2017 - 2020

CERTIFICATIONS

Google Data Analytics Professional Certificate
Google UX Design Professional Certificate
AWS Academy Cloud Foundations
Excel y Power BI
Power BI Business Intelligence

LANGUAGES

Spanish — Native
English — C1 Professional Working Proficiency
