PROFESSIONAL OVERVIEW

I am a Computer Systems Engineer specializing in software development, with expertise in object-oriented programming, data structures, .NET framework, mobile and web application development, REST service integration, and relational and non-relational databases. I am passionate about creating efficient solutions, writing maintainable code, and learning new technologies. I am a committed and adaptable professional with strong teamwork skills and the ability to tackle new technological challenges.

SKILLS

- Languages: JavaScript, Dart, Python, SQL, C++, C#
- Frontend: React.js, Angular, Vue.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- Mobile: Flutter, Dart
- Backend / APIs: Node.js, Express.js, REST APIs, JSON, XML
- Cloud / DevOps: AWS Lambda, API Gateway, AWS Amplify, Docker, Kubernetes, Git
- Databases: MySQL, MongoDB, SQL Server
- Developer Tooling: GitHub, GitLab, Bitbucket, Vite
- Analytics / BI: Power BI, Tableau, Excel, Data Visualization, Dashboard Development, KPI Reporting, Data Analysis
- Design / Product: Figma, Adobe XD, Photoshop, Illustrator
- Data Modeling: Relational Databases, Data Modeling, DAX (Basic), ETL Concepts
- Methodologies: Agile, Scrum, Kanban, Code Review, Technical Documentation

WORK EXPERIENCE

Software Developer | Spark Technologies — JUNE 2025 – PRESENT

- Development of cross-platform mobile applications using Flutter and Dart.
- Design and implementation of software solutions to optimize processes and improve operational efficiency.
- Database management and integration for efficient information storage and retrieval.
- Use of version control tools (Git) and collaborative work methodologies for project development and maintenance.
- Participation in software analysis, development, testing, and maintenance, collaborating with multidisciplinary teams to deliver scalable, high-quality solutions.

Web & Mobile Developer | Fixer MX — JULY 2024 – DEC 2024

- Development of cross-platform mobile applications using Flutter and Dart.
- Design and implementation of serverless solutions with AWS Lambda, API Gateway, and AWS Amplify to improve scalability and performance.
- Development and maintenance of a web platform, optimizing the user experience and responsiveness.
- Integration of front-end and back-end services, enhancing the application's scalability, performance, and maintainability.

Technical Instructor | TECNOLOchicas — JULY 2024 – JUNE 2025

- Teaching HTML, CSS, and JavaScript workshops, with a focus on practical software development.
- Designing instructional materials, programming exercises, and interactive technical content.

- Providing guidance and mentoring on problem-solving and programming fundamentals in virtual environments.
- Adapting teaching strategies to different levels of knowledge to enhance learning.

EDUCATION

Bachelor of Computer Systems Engineering | Instituto Tecnológico de Mexicali 2020 - 2024
Programming Technician | CECYTE BC Plantel Compuertas 2017 - 2020

CERTIFICATIONS

AWS Academy Cloud Foundations
Google UX Design Certificate
Google Data Analytics Certificate
Power BI Course - Data Analysis and Business Intelligence
Excel and Power BI - Data Analysis and Visualization

LANGUAGES

Spanish — Native
English — C1 Professional Working Proficiency
